After the European Ramblers Association (ERA) has been recognised by the International Committee of the Mediterranean Games as the international waterway reference federation, the steering committee of this discipline within the ERA has decided to develop a competitive European circuit through an annual challenge.

Because of this the idea of pushing forward the first edition of the European Aqua Walking Challenge, under the organization of the Federació d'Entitats Excursionistes de Catalunya (FEED), is born. A first order event will involve the best sportsmen of the national teams of France, Italy, Catalonia and Bavaria. A unique opportunity to see for the first time in our country the best of the best of this sport which was born in France in 2015 and which four years ago it landed forcefully in Catalonia, with more and more clubs and sportsmen and women.

During three days, from the 23rd until the 25th September 2022 the beach of Rastell, located in the municipality of Roses (Costa Brava; Catalonia) will see the fierce fighting among the best sportsmen of this discipline in the 200 metre male and female binomial tests, 50 metre individual with male and female rowing, 800 metre mixed binomial and the 4x50 m mixed relay test. The show is guaranteed!

Welcome to Catalonia. Welcome to the Costa Brava.

Jordi Merino Urbano
President of the FEED

From the 23rd until the 25th of September

Registration at www.marxaaquatica.cat until the 31st of July 2022

marxa.aquatica@feec.cat

0034 93 412 07 77

The town of Roses, located in a bay with 3,000 years of history, has a strong Mediterranean essence and an important tourist and seafaring tradition. Located in a unique natural environment, north of the Costa Brava, less than 30 km from the French border, 65 km from Girona and 160 km from Barcelona, it is one of the

gateways to the Cap de Creus Natural Park. Its origins date back to the 8th century BC, with the arrival of the Rhodians and the founding of the Greek city of Rhodes. These historical events have become the hallmarks of a modern, culturally active town, the result of coexistence with other peoples and civilizations.

We invite you to navigate a town full of charms and new sensations to discover - as the first settlers did more than 3000 years ago - where to enjoy Roses will seduce you seduce by its sunsets, by the affable and hospitable temperament of its people, for the historical legacy, for the tourist, sports and gastronomic offer, for the professionalism in the services it offers and for the infinite possibilities of leisure and leisure that it offers.
